

## SCHEDULE

Each month we want to focus on a topic that is important to a student's transition into college and we hope that each mentor is able to check in with their mentee(s) on that particular topic. We've also collaborated with incredible campus partners to offer a presentation or workshop on the topic of the month.

› Please note that these monthly presentations are optional and only open for student mentees to attend. More details and an RSVP link for each month's event(s) will be sent out one month prior through our monthly newsletter.
